

Hands-Free Door Openers

Hands-Free Door Openers from Stylmark designed to work with latchless doors. These **Hands-Free Door Openers** are perfect for restaurants, casinos, hotels and other environments where your restrooms get a lot of daily foot traffic. Manufactured from anodized aluminum, one of the most respected and widely used materials in commercial environments, it is the perfect choice for these areas. Stylmark can also work with your design team to create a custom door handle that represents your brand.

Let Stylmark open the door for you!
